Our STAR Program Line-Up

Stepping Up to Kindergarten (Kindergarten)

Students will be taken on a fun and exciting adventure around the world. The students will “pack their bags” and take flight and discover new destinations. They will explore the wonders of the ocean, the majestic mountains, the vast safari, and the beautiful rainforest. During each themed week we will read stories, work on letters and sounds, numbers and counting, hands-on science experiments, weekly crafts and more. Our journey will be educational and exciting!

Stepping Up to 1st Grade..... (1st Grade)

Welcome to the world of First Grade! This summer, students will step into a fun and enriching first grade experience. Students will explore their “All about Summer” program through, reading, writing, and math, and the arts. A daily exercise regime will also be included. The goal of this program is to reinforce social, emotional, and academic skills and build confidence for the fall!

Stepping Up to 2nd Grade..... (2nd Grade)

Elevate your child’s academic readiness with our specially crafted program for rising second-grade students! This engaging course focuses on reinforcing core skills in reading, math, and critical thinking through interactive lessons and hands-on activities. Our experienced educators provide personalized attention, ensuring each child builds confidence and competence in fundamental subjects. From literacy adventures to math challenges, this program offers a stimulating environment where students can strengthen their academic foundation while fostering a love for learning. Join us for a summer of educational exploration and set your child on the path to success in the upcoming school year!

Stepping Up to 3rd Grade.....(3rd Grade)

Prepare your rising third grader for a successful academic journey with our summer accelerator program! Tailored to meet the needs of transitioning students, this engaging course focuses on enhancing essential skills in reading, mathematics, and critical thinking. Our dedicated instructors employ a dynamic and interactive approach, ensuring a stimulating learning environment where children actively participate in hands-on activities and collaborative projects. From literature adventures to math challenges, the Summer Accelerator program aims to boost confidence and enthusiasm for learning, laying a strong foundation for the upcoming school year. Join us for a summer of educational excitement, empowering your child to thrive academically and embrace the challenges of third grade!excitement, empowering your child to thrive academically and embrace the challenges of third grade!

Rising Stars Phontastic Voyage..... (1st - 3rd Grades)

Students will be taken on a fun and exciting adventure around the world. The students will “pack their bags” and take flight and discover new destinations. They will explore the wonders of the ocean, the majestic mountains, the vast safari, and the beautiful rainforest. During each themed week we will read stories, work on letters and sounds, numbers and counting, hands-on science experiments, weekly crafts and more. Our journey will be educational and exciting!

Rising Stars English Odyssey (ELL)(4th - 8th Grades)

Elevate your English language proficiency with our Summer Language Enrichment Program, tailored for English Language Learners (ELLs) seeking to enhance their language skills! This immersive course is designed to create a supportive and inclusive environment where students can build confidence and fluency in English. Our experienced instructors employ engaging activities, interactive exercises, and culturally relevant content to cater to the unique needs of English language learners. Through a combination of speaking, listening, reading, and writing exercises, participants will gain a solid foundation in grammar, vocabulary, and pronunciation. Join us for a transformative summer, where language barriers dissolve, and communication skills flourish, setting the stage for academic success and increased confidence in English proficiency.

SSAT Prep(6th - 8th Grades)

Prepare for academic success with our Summer SSAT (Secondary School Admission Test) Prep Program, meticulously designed for 6th through eighth-grade students seeking entry into competitive secondary schools! Led by seasoned instructors, this intensive course provides a comprehensive review of the SSAT format, focusing on test-taking strategies, critical thinking, and time management skills. Participants will delve into all sections of the exam – verbal, quantitative, and reading comprehension – through targeted exercises and practice tests to build confidence and proficiency. Our program aims to equip students with the tools necessary to excel in the SSAT, ensuring they approach the exam with a strategic mindset and a solid foundation in the key academic areas. Join us for a summer of academic preparation, where young minds can enhance their test-taking abilities and elevate their chances for success in secondary school admissions!

PE Fun and Games (K - 2nd Grades)

Join our exciting Summer Sports program designed for first and second grade students! This dynamic and inclusive program focuses on introducing young learners to a variety of sports, promoting teamwork, coordination, and a love for physical activity. From soccer to Wiffleball, our skilled instructors create a fun and supportive environment where children can explore different sports, develop fundamental motor skills, and build friendships. Through age-appropriate activities and games, participants will not only enhance their athletic abilities but also gain confidence and a positive attitude towards an active lifestyle. Give your child the opportunity to experience the joy of sports while fostering important social and physical development in our PE Fun and Games!

Chess Explorers (1st - 3rd Grades)

Embark on a chess adventure tailored for our youngest strategists with our Summer Chess Explorers program, designed for first grade through third-grade students! This dynamic course introduces the fundamentals of chess in a fun and interactive way, cultivating critical thinking and problem-solving skills from an early age. Our skilled instructors utilize age-appropriate activities and games to make learning chess enjoyable and accessible, fostering a love for this timeless game. Through captivating lessons, young learners will grasp the basics of piece movement, chessboard navigation, and even delve into basic tactics. Join us for a summer of intellectual growth, where your child can develop strategic thinking and embrace the world of chess in a supportive and engaging environment. of third grade! excitement, empowering your child to thrive academically and embrace the challenges of third grade!

Be the Light(4th - 8th Grades)

Deepen your spiritual connection and cultivate a vibrant faith with our summer spiritual enrichment program, tailored for fourth through eighth-grade students! This unique course offers a nurturing environment where young minds can explore the richness of Catholic teachings, fostering a deeper understanding of their faith. Guided by experienced instructors, participants will engage in interactive discussions, prayerful reflections, and community-building activities to strengthen their relationship with God and one another. Through age-appropriate lessons, scripture study, and meaningful rituals, students will embark on a journey of spiritual growth, gaining a profound appreciation for the Catholic tradition. Join us for a summer of faith-filled exploration, where young hearts can thrive spiritually and build lasting connections to “Be the Light” within our community!

Genius Startups..... (3rd - 5th Grades)

Unlock the young entrepreneur within you with our summer Genius Start-Up program, tailored for third through fifth-grade students! This dynamic program is designed to inspire creativity, critical thinking, and business acumen in our budding leaders. Participants will engage in hands-on activities, exploring the fundamentals of entrepreneurship through exciting projects, idea generation, and collaborative ventures. Led by a certified Kidpreneurs® educator, students will learn essential skills and vocabulary such as market research, budgeting, and effective communication, preparing them to turn their innovative ideas into reality. Join us for a summer of entrepreneurial exploration, where young minds can unleash their potential, cultivate leadership skills, and embrace the exciting world of business innovation!

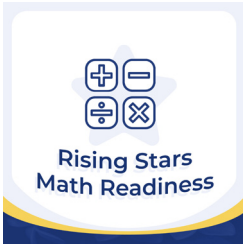

Rising Stars Literacy Readiness.....(4th - 5th Grades)

Elevate your child’s literacy skills with our Summer Literacy Readiness Workshop, crafted exclusively for fourth and fifth-grade students! This program is designed to enhance reading comprehension, vocabulary, and critical thinking in a dynamic and supportive environment. Our experienced instructors will guide students through engaging literature, interactive discussions, and writing exercises to strengthen their literacy foundation. From exploring diverse genres to honing analytical skills, participants will gain the tools necessary for success in the upper elementary grades. Join us for a summer of literary adventure, where your child will build confidence, sharpen their reading abilities, and develop a lifelong love for literature!

Rising Stars Literacy Readiness.....(3rd Grade)

Prepare your third-grader for a successful literacy journey with our Summer Literacy Readiness Program! This specialized course is designed to boost essential reading skills and foster a love for language arts in a fun and engaging environment. Experienced educators will guide students through interactive activities, focusing on phonics, vocabulary building, comprehension strategies, and fluency development. Through captivating stories, interactive games, and collaborative projects, participants will enhance their reading proficiency and build the confidence needed for the upcoming school year. Join us for a summer of literary exploration, where your child will develop the foundational skills crucial for academic success and a lifelong appreciation for reading!

Rising Stars Math Readiness(4th - 5th Grades)

Get ahead in math with our Summer Math Readiness Bootcamp, tailored for fourth and fifth-grade students! This dynamic program is designed to reinforce essential math skills, enhance problem-solving abilities, and build a strong foundation for success in the upcoming school year. Through engaging activities, interactive lessons, and collaborative projects, participants will tackle challenging math concepts, strengthen their number sense, and boost their confidence in mathematical problem-solving. Experienced instructors will provide personalized support, ensuring that each student develops a deep understanding of key mathematical principles. Join us for a summer of numerical exploration, where your child will sharpen their math skills and approach the next school year with confidence and enthusiasm!

LEGO Robotics: Mayan Adventure.....(4th - 8th Grades)

Embark on a captivating journey into the world of robotics with our Summer LEGO Robotics Mayan Adventure, tailored for fourth through eighth-grade students! In this hands-on program, participants will unleash their creativity, problem-solving skills, and technological prowess as they design and build their own robots using LEGO Mindstorms kits. Guided by experienced instructors, students will learn the fundamentals of programming, engineering principles, and teamwork in an exciting and collaborative environment. From constructing robots that navigate mazes to tackling real-world challenges, this program offers a dynamic and interactive experience that combines STEM education with the thrill of building and coding. We will join Evan and his archaeologist uncle as they explore a Mayan pyramid complete with traps and treasures. We will learn an engineering design methodology that will teach us about the motors and sensors and allow us to build and program robots to navigate the pyramid, defeat the traps and solve the mystery of King Ixtua's tomb. Join us for a summer of innovation, where young minds transform LEGO bricks into robotic wonders and discover the endless possibilities of technology!

Bible Buddies (K - 2nd Grades)

Embark on a spiritual journey with our engaging Bible Buddies program tailored for Kindergarten through 2nd-grade students! This nurturing course is designed to introduce young hearts and minds to the timeless stories and teachings found in the Bible. Through interactive lessons, age-appropriate activities, and creative storytelling, children will discover the values of kindness, compassion, and love. Our experienced instructors create a supportive environment where kids can ask questions, express their thoughts, and develop a foundational understanding of faith. Join us for a summer of joyful exploration as we share the wisdom and joy of biblical stories, fostering spiritual growth in a warm and inclusive setting.

Book Ends(4th - 8th Grades)

Immerse yourself in the world of literature with our summer Book Ends book club, tailored for fourth through eighth-grade students! This enriching program invites young readers on a captivating journey through a diverse selection of age-appropriate books, fostering a love for reading and thoughtful discussions. Led by passionate educators, participants will explore engaging novels, share insights, and participate in creative activities that bring stories to life. The Book Club provides a welcoming space for literary exploration, critical thinking, and building lasting friendships based on a shared love of books. Join us for a summer of literary discovery, where young minds come together to explore the magic and power of storytelling!

Summer Soccer Clinic (3rd - 5th Grades)

Kick off an exciting summer of soccer with our Summer Soccer Clinic, designed for third through fifth-grade students! This energetic program focuses on skill development, teamwork, and fostering a love for the beautiful game. Led by experienced coaches, participants will engage in age-appropriate drills, fun exercises, and friendly matches to enhance their soccer abilities. From refining dribbling techniques to mastering goal-scoring strategies, this program offers a dynamic and supportive environment for players of all skill levels. Join us for a summer of athletic growth, camaraderie, and the thrill of scoring goals, as young athletes build lasting memories on the soccer field!

Circus Olina(4th - 8th Grades)

Circus Olina has created an exciting program, based around movement exercises and circus activities! In this course your child will be moving a lot. The course combines fun games, stretching exercises, jump roping, hula hooping, balance and coordination activities with a circus theme. Circus disciplines like juggling, spinning plates, Chinese yo-yo, walking across the balance beam are part of this fun and engaging course! The program works on and increases students' balance, coordination, confidence, and team working skills. The primary instructor of this course not only holds years of experience teaching circus, movement and physical education classes but also has a background in occupational therapy focusing on the importance of movement for children's development.

Cheer/Yoga(K - 3rd Grades)

Unleash the spirit of joy and mindfulness with our Summer Cheer and Yoga Fusion program, crafted for Kindergarten through 2nd-grade students! This dynamic course offers a unique blend of cheerleading and yoga, promoting physical activity, self-expression, and relaxation. Led by experienced instructors, young participants will engage in spirited cheer routines, learning basic cheers and fostering teamwork in an encouraging environment. Transitioning to the serenity of yoga, children will explore gentle poses, breathing exercises, and mindfulness techniques tailored to their age group, promoting balance and mental well-being. Join us for a summer of energetic cheer and calming yoga, where young minds and bodies find the perfect harmony of excitement and tranquility!

Crafty Kids(K - 3rd Grades)

Unlock your child's creativity in our summer Crafty Kids program, designed for Kindergarten through 2nd-grade students! This vibrant program offers a world of artistic exploration where young imaginations can run wild. Led by experienced instructors, participants will dive into a variety of hands-on projects, from painting and drawing to sculpting and crafting, encouraging self-expression and fine motor skill development. Our summer studio provides a joyful and supportive space for children to unleash their artistic potential while fostering a love for creating. Join us for a summer of colorful masterpieces, laughter, and the joy of crafting, where every child can let their imagination soar in a world of artistic possibilities!

PE Fun and Games.....(3rd - 4th Grades)

Dive into a summer of active fun with our summer sports program, specially crafted for third and fourth-grade students! This dynamic course offers an exciting blend of various sports, including soccer, basketball, and T-ball, providing a well-rounded and engaging experience. Our skilled instructors focus on skill development, teamwork, and sportsmanship in a supportive environment. Through interactive drills, friendly competitions, and teamwork-building activities, participants will not only enhance their athletic abilities but also foster friendships and a love for an active lifestyle. Join us for a summer of sports exploration, where every child can discover their passion for physical activity and develop essential skills for a lifetime of active enjoyment!

Made for the Stage(2nd - 5th Grades)

Step into the spotlight with our summer Made for the Stage Workshop, tailored for second through fifth-grade students! This dynamic program is designed to ignite the passion for performance and creativity in young actors. Led by experienced theater professionals, participants will engage in a variety of drama exercises, improv games, and scripted scenes, honing their acting skills and boosting self-confidence. From exploring character development to staging a final production, this workshop offers a supportive and collaborative environment for young performers to shine. Join us for a summer of theatrical excitement, where children can discover the magic of the stage, build lasting friendships, and bring their imaginations to life in the spotlight!

Genius Startup Master's(6th - 8th Grades)

Empower your middle schooler's entrepreneurial spirit with our summer Genius Start-up Master's program, tailored for sixth through eighth-grade students! This immersive program is designed to ignite creativity, strategic thinking, and business savvy in aspiring young innovators. Participants will delve into real-world entrepreneurial challenges, learning to ideate, prototype, and market their own ventures under the guidance of experienced mentors. From business model development to financial literacy, students will gain practical skills essential for the entrepreneurial journey. Join us for a transformative summer, where students not only grasp the intricacies of business but also cultivate resilience, teamwork, and the confidence to turn their unique ideas into successful ventures.

Hawaiiiana Adventures.....(K - 3rd Grades)

Embark on an enchanting cultural voyage with our summer Hawaiiiana Adventure, designed for Kindergarten through third grade students! Immerse your child in the vibrant traditions of Hawaii as they explore the captivating arts, music, dance, and language unique to the islands. Led by knowledgeable instructors, students will engage in hula basics, discover the melodic sounds of traditional Hawaiian instruments, and delve into the stories that weave the rich tapestry of Hawaiian culture. Through hands-on activities and creative projects, young learners will develop an appreciation for the aloha spirit and the diverse traditions that make Hawaii so special. Join us for a summer of cultural exploration, fostering a deep connection to the beautiful world of Hawaiiiana!

Archery Challenge.....(4th - 8th Grades)

Embark on a precision-packed adventure with our Summer Archery Challenge, exclusively designed for fourth through eighth-grade students! This dynamic program offers a unique opportunity for young archers to develop focus, discipline, and accuracy under the guidance of experienced instructors. Participants will learn the fundamentals of archery, including proper stance, aiming techniques, and bow handling, in a safe and supportive environment. Engaging in exciting target practice, archery games, and skill-building exercises, students will enhance their marksmanship while fostering a love for this ancient and exhilarating sport. Join us for a summer of bullseyes, camaraderie, and archery prowess, as young archers aim for success and embrace the thrill of hitting the target!

Artopia.....(4th - 8th Grades)

Unleash your creativity in our summer Artopia Studio, tailored for fourth through eighth-grade students! This immersive program is a vibrant canvas of artistic exploration, offering participants the opportunity to delve into a variety of hands-on projects. Led by skilled instructors, young artists will explore drawing, painting, sculpture, and mixed-media creations, fostering self-expression and honing their artistic skills. From collaborative projects to individual masterpieces, our studio provides a supportive and joyful environment where students can unleash their imagination. Join us for a summer of colorful inspiration, laughter, and the joy of crafting, where every participant can discover their unique artistic voice and create lasting memories!

Rising Stars Literacy Readiness.....(2nd Grade)

Prepare your second-grader for a successful literacy journey with our Summer Literacy Readiness Program! Tailored to enhance vital reading skills and cultivate a passion for language arts, this specialized course promises a dynamic and enjoyable learning experience. Experienced educators will guide students through interactive age-appropriate activities, focusing on phonics, vocabulary building, comprehension strategies, and fluency development. Through captivating stories, interactive games, and collaborative projects, participants will enhance their reading proficiency and build the confidence needed for the upcoming school year.

Basketball.....(4th - 8th Grades)

Dribble, shoot, and score with our summer Basketball Intensive, designed for fourth through eighth-grade students! This dynamic program is crafted to elevate basketball skills, enhance teamwork, and instill a love for the game. Led by experienced coaches, participants will engage in skill-building drills, friendly competitions, and strategic gameplay to foster both individual growth and team camaraderie. From mastering lay-ups to perfecting three-pointers, this program provides a challenging and supportive environment for players of all levels.

Culinary Explorations.....(4th - 8th Grades)

Embark on a delicious journey into the world of cooking science with our summer Culinary Exploration, tailored for fourth through eighth-grade students! This program blends the art of cooking with the wonders of science, allowing young chefs to uncover the secrets behind their favorite dishes. Led by experienced culinary instructors, participants will engage in hands-on experiments, exploring the chemical reactions and transformations that occur in the kitchen. From understanding the science of baking to experimenting with molecular gastronomy, this program encourages both culinary creativity and scientific curiosity. Join us for a summer of flavorful discoveries, where students can whip up tasty treats while unraveling the science behind every culinary masterpiece!

Chess Mastery.....(4th - 8th Grades)

Sharpen your strategic thinking and tactical prowess with our Summer Chess Mastery Program, exclusively designed for fourth through eighth-grade students! This intensive course is crafted to challenge and enhance the chess skills of intermediate players, offering a deep dive into advanced strategies, opening principles, and endgame techniques. Led by experienced chess instructors, participants will engage in competitive play, tactical puzzles, and in-depth analysis to elevate their understanding of the game. Through a blend of theory and practical application, students will develop a strong foundation in chess and cultivate critical thinking skills that extend beyond the chessboard. Join us for a summer of intellectual growth, camaraderie, and chess mastery that will leave a lasting impact on your strategic abilities!

Bookworms.....(K - 3rd Grades)

Spark the joy of reading with our summer Book Worms Club, designed for kindergarten through second-grade students! This delightful program is crafted to nurture young imaginations through enchanting picture books and engaging activities. Led by enthusiastic educators, our little readers will embark on magical literary adventures, exploring colorful characters and whimsical tales. Through interactive discussions, creative crafts, and imaginative play, children will develop a love for storytelling and enhance their early literacy skills in a supportive and fun environment. Join us for a summer of literary delight, where the magic of books comes alive, and young minds begin their journey into the wonderful world of reading!

Volleyball(5th - 8th Grades)

Spike into action with our summer Volleyball Intensive, exclusively designed for fifth through eighth-grade students! This program is crafted to hone volleyball skills, promote teamwork, and foster a love for the game. Led by experienced coaches, participants will engage in skill-specific drills, strategic gameplay, and friendly competitions, ensuring both individual improvement and team collaboration. From perfecting serves to mastering digs and spikes, our program provides a supportive and challenging environment for players of all levels. Join us for a summer of volleyball excitement, where young athletes can enhance their skills, build lasting connections, and experience the thrill of the court!

Mathletes(5th - 8th Grades)

Join our elite summer Mathletes Training Camp, exclusively tailored for a team of competitive math enthusiasts in fifth through eighth grade! This intensive program is designed to sharpen mathematical prowess, foster strategic thinking, and prepare students for success in regional and national math competitions. Led by seasoned math coaches and former competitors, participants will delve into advanced problem-solving techniques, tackle challenging mathematical concepts, and engage in collaborative team-based activities. From mastering algebraic equations to conquering complex geometry problems, our Mathletes Training Camp provides an intellectually stimulating environment where young minds can flourish. Join us for a summer of mathematical excellence, where students can enhance their skills, forge lasting friendships, and prepare to shine in the world of competitive math competitions!

Gardening Club.....(K - 5th Grades)

Cultivate a love for nature with our summer Gardening Club, designed for budding green thumbs in Kindergarten through fifth grade! This hands-on program offers an exciting journey into the world of gardening, where young enthusiasts will sow the seeds of curiosity and environmental stewardship. Led by experienced horticulturists, participants will engage in planting, nurturing, and harvesting a variety of plants, fostering a connection to the earth and the joy of gardening. From exploring the life cycle of plants to creating their own mini-gardens, this club provides a nurturing and educational environment for students to discover the wonders of nature. Join us for a summer of growth, where young gardeners can cultivate skills, make new friends, and harvest a season of green memories!

Jewelers of the Sea(4th - 8th Grades)

Dive into the world of creativity and craftsmanship with our summer Jewelers of the Sea Workshop, crafted for fourth through eighth-grade students! This dynamic program is tailored to inspire young artisans as they explore the art of jewelry making. Guided by experienced instructors, participants will learn essential techniques such as beading, wirework, and basic metalworking to create stunning and personalized jewelry pieces. From crafting unique necklaces to designing intricate bracelets, this workshop offers a space for self-expression and skill development. Join us for a summer of adornment and creativity, where young designers can unleash their artistic flair, forge lasting friendships, and take home beautiful, handcrafted jewelry creations!
