A Café-Style Creative Space for Young Artists

Watercolor Lab

CREATE, SIP, AND LET YOUR IMAGINATION FLOW

Watercolor Lab is a once-a-week exploratory watercolor workshop designed for 5-8th graders to experiment, create, and express themselves through art. Students will explore watercolor techniques, color blending, texture, composition, and creative expression in a relaxed, supportive studio environment. Each session encourages imagination, artistic risk-taking, and personal creativity while introducing new artistic ideas and approaches.

No prior art experience is needed — just curiosity and a willingness to explore.
